Team Name	Chip’s Corral
Team Number	101-2
Team Members	Jackson Lee
	Adam Dinser
	Joe Ledesma
	Nick Hanselman
	JC Abrahamson
	John Etchason
Application Name	Chip’s Corral
Application Description	A website that allows users to create groups and threads for discussions, resources, information etc. Threads/groups can be public or private and to join a server you must be a student attending the university for that server.
Vision Statement	We want to create a digital community for CU Boulder students. We envision easy exchange of knowledge between students on a clean, well designed website.

Version Control	https://github.com/101-2 Development Method	Our scope will be defined through an Agile development plan.
Communication Plan	Slack and iMessage
Proposed Architecture Plan	Front End: HTML, JS, CSS, Bootstrap Back End: Python, SQL
Meeting Plan	Meeting face-to-face in CASE on tuesdays 3:30 to 4:30 unless previously specified.
